SHARE MARISOL'S STORY

Water Changed Her Life

Marisol used to miss school whenever the family water barrel ran dry. Her village worked with a local church to protect a spring, add rainwater tanks, and grow a school garden. Now Marisol can keep learning. Your gift can help families like Marisol's – see how at aguaviva.org/water.

Feel free to share this card with someone and pray for children and families in Guatemala.

**Fictional story and people. Composite setting outside Malacatancito.
